WordPress Info

To install this theme you must have a working version of WordPress already installed. If you need help installing WordPress, follow the instructions in [WordPress Codex](#) or you can watch the [Instructional Video](#) created by Woo Themes. Below are all the useful links for WordPress

information.

- [WordPress Codex](#) general info about WordPress and how to install on your server
- [First Steps With WordPress](#) general information that covers a wide variety of topics
- [FAQ New To WordPress](#) the most popular FAQ's regarding WordPress
- [WP101 Basix Training videos](#) some great videos from WPTuts on WordPress

Exertio Theme Requirnments

To use Exertio, you must be running WordPress 5.6 or higher, PHP7.4 or higher, and mysql 5 or higher. We have tested it with Mac, Windows and Linux. Below are a list of items you should ensure your host can comply with.

- Check to ensure that your web host has the minimum requirements to run WordPress.
- Always make sure they are running the latest version of WordPress
- You can download the latest release of WordPress from official [WordPress](#) website
- Always create secure passwords FTP and Database

Hosting is more secure when PHP applications, like WordPress, are run using your account's username instead of the server's default shared username (www or www-data). The most common way for hosting companies to do this is using suPHP. Just ask your potential host if they run suPHP or something similar.

Theme Installation

You can install the theme in two ways: through WordPress, or via FTP. The **Exertio.zip** file is the Installable WordPress Theme and what you need to use to get the theme installed.

Downloading The Main Files Gives You All The Content Listed Below

- **Exertio Theme Folder** contains the **Exertio.zip** and **Exertio-child.zip** wordpress theme. The child theme is only for users who make code changes.

Downloading The Installable WordPress Theme Only Gives You The Exertio.zip File

- **Exertio.zip** this is the parent wordpress theme, install this via WordPress. If you install it via FTP then unzip it first and use the extracted folder.

Name	Date modified	Type	Size
 Licensing	2/13/2021 3:17 PM	File folder	
 exertio.zip	2/13/2021 3:08 PM	WinRAR ZIP archive	21,088 KB
 exertio-child.zip	2/13/2021 3:06 PM	WinRAR ZIP archive	360 KB

Follow the steps below to install via WordPress.

Step 1 Navigate to **Appearance > Themes**.

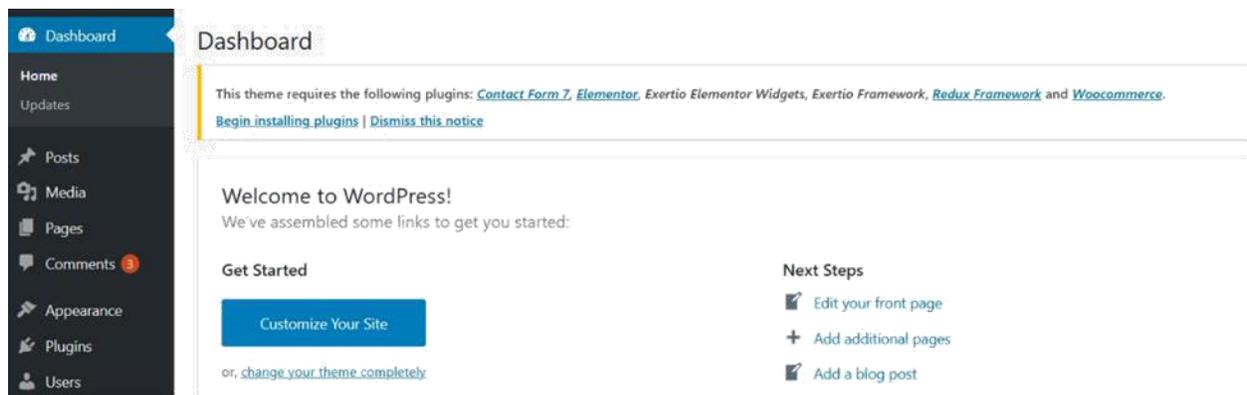

Step 2 Click **Add New** and hit the **Upload Theme** button.

Step 3 Navigate to find the **“Exertio.zip”** file on your computer and click **“Install Now”**

Step 4 Wait while the theme is uploaded and installed.

Step 5 Activate the newly installed theme. Go to **Appearance > Themes** and activate it.

Step 6 Then you will get a notification to activate the required plugins: Exertio Framework and Elementor.

Common Install Error: Are You Sure You Want To Do This?

If you get the “**Are You Sure You Want To Do This**” message when installing Exertio.zip file via WordPress, it means you have an upload file size limit. Install the theme via FTP if this happens, or call your hosting company and ask them to increase the limit.

Follow the steps below to install via FTP.

Step 1 – Log into your hosting space via an FTP software

Step 2 – Unzip the **Exertio.zip** file and **ONLY** use the extracted **Exertio** theme folder

Step 3 – Upload the extracted **Exertio** theme folder into **wp-content > themes** folder

Step 4 – Activate the newly installed theme. Go to **Appearance > Themes** and activate it.

Theme Demo Data

When you first install any wordpress theme, it will not contain all the extra content that you might of seen in the live demo. Please follow this link to import demo content.

<https://documentation.scriptsbundle.com/doc/exertio-freelance-marketplace-wordpress-theme/how-to-import-demo-data/>

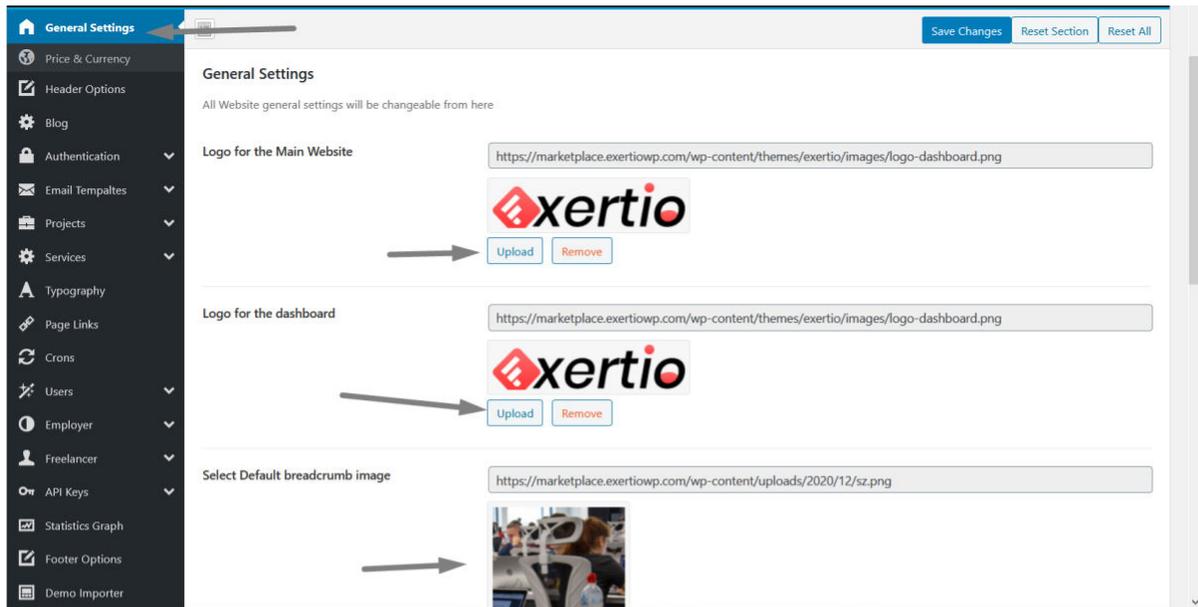

Child Theme

Child theme comes with this package. If you are going to make update in the theme. Then we suggest you to install the child theme and make change there. So that when you update the theme you changes don't get replaced. You can find the child theme Exertio-child.zip in the installation file.

Price & Currency

Price & Currency: In the Price & Currency section admin can set a theme currency order.

On the front end currency will show according to the setting which is set in the theme option.

Header Options

Admin can control front end header style.

The screenshot shows the 'Header Options' admin panel. On the left is a sidebar menu with options like 'General Settings', 'Header Options', 'Blog', 'Authentication', etc. The main content area is titled 'Header Options' and contains several settings:

- Header Type:** A preview of the header with the 'freelance' logo and navigation links (Home, About Us, Services, Portfolio, Contact Us, Sign In, Job Post).
- Header Full Width or Boxed Width:** Radio buttons for 'Full Width' (selected) and 'Boxed Width'.
- Header Full Width or Boxed Width:** Radio buttons for 'Solid' (selected) and 'Transparent'.
- Header Primary Button Text Without Login:** Text input field containing 'BrowseJobs'. Below it, a note says 'If you do not provide the button text, the button will not be visible.'
- Header Primary Button Page Link Without Login:** Dropdown menu with 'Project Search [227]' selected.
- Secondary Button Text Without Login:** Text input field containing 'Create Account'. Below it, a note says 'If you do not provide the button text, the Secondary button will not be visible.'

At the top right of the panel are buttons for 'Save Changes', 'Reset Section', and 'Reset All'.

This screenshot shows the lower portion of the 'Header Options' admin panel, focusing on settings for buttons after login:

- Secondary Button Link Without Login:** Dropdown menu with 'Register [147]' selected.
- Employer Button Text After Login:** Text input field containing 'Dashboard'. Below it, a note says 'If you do not provide the button text, the button will not be visible.'
- Employer Primary Button Page Link After Login:** Text input field containing 'https://marketplace.exertiowp.com/dashboard/'.
- Freelancer Button Text After Login:** Text input field containing 'Dashboard'. Below it, a note says 'If you do not provide the button text, the Secondary button will not be visible.'
- Freelancer Button Link After Login:** Text input field containing 'https://marketplace.exertiowp.com/dashboard/'.

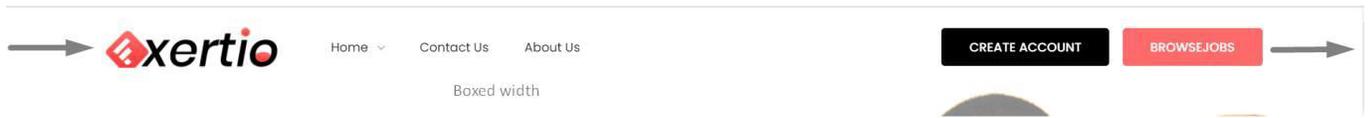

At the bottom right of the panel are buttons for 'Save Changes', 'Reset Section', and 'Reset All'.

Currently, our theme contains only one header however with the passage of time we'll include more headers.

Header Full Width:

The screenshot shows the 'xertio' website header. It features the 'xertio' logo on the left, followed by navigation links: 'Home', 'Contact Us', and 'About Us'. On the right side, there are two prominent buttons: 'CREATE ACCOUNT' (black) and 'BROWSE JOBS' (red). Below the navigation links, the text 'Full width' is displayed, indicating the current header style. The header is framed by a thin border, and there are arrows pointing left and right below the 'Full width' text.

Admin December 26, 2020 No Comments

Life is insane. It's constantly been valid, however it feels particularly so now like never before. The current COVID-19 emergency has affected each part of our lives, and the occupation market has been hit particularly hard. In this unusual atmosphere, it's difficult to tell where to go when you've wound up searching for work or expecting to make additional money. The appropriate response? Take a gander at yourself and transform the abilities you as of now have into a business.

You have passions and experiences in you already that people will pay for. It's all about finding them and turning them into a business. In this guide, we'll turn the inklings and ideas you have floating around in your head into a reliable way to make money.

1. Find your talent.

Take stock of everything you have right now to see what can be the basis for your business. It's all up there in your brain already, so let's shake out what we can use by separating what you have in terms of skills, knowledge and talents. Then we can put all of that together and make it work for you as a successful self-owned side hustle or business.

The difference between "knowledge" and "skills"
Knowledge is data you have learned through books, media, school, etc, while an aptitude is utilizing that information. Put another way, information is a hypothesis, and abilities are the information in practice.

You need both information and abilities to be acceptable at something, however there is the fundamental distinction among information and expertise. Anybody can find out about a subject and gain information, yet a few people will normally be more talented at specific undertakings than others due to common capacity. Consider how anybody can take a seminar on craftsmanship history, yet a few people have an "eye" for it.

A champ is somebody who perceives his undeniable gifts, works his tail off to form them into aptitudes, and utilizes these abilities to achieve his objectives

The difference between "skills" and "talent"
That natural ability to be better at specific tasks is talent. While most people can learn about a subject and apply it in a practical way on a skill, only some will excel at it or exhibit a talent. Like knowledge, skills can be learned and practiced, but with talent, you either have it or you don't.

Say you and your friends all took a knitting class. Even though you received the same knowledge and learned and practiced the same skill, at the end of the class at least one person's scarf will likely be better designed and better constructed because they have a natural talent for knitting. That doesn't mean everyone with slightly lumpy scarves should stop knitting. It just means that maybe those makers of irregular scarves without a natural talent might not want to open a scarf store.

Is there anything you can turn into a business?

Exit your list with a critical eye. You want to take activities that come to you naturally and turn them into a business. Look at your list to see if it answers the question, "How don't I solve people's problems with this skill or hobby?" Consider common problems that you may have as others may be in the same boat and brainstorm a solution.

Authentication - Login

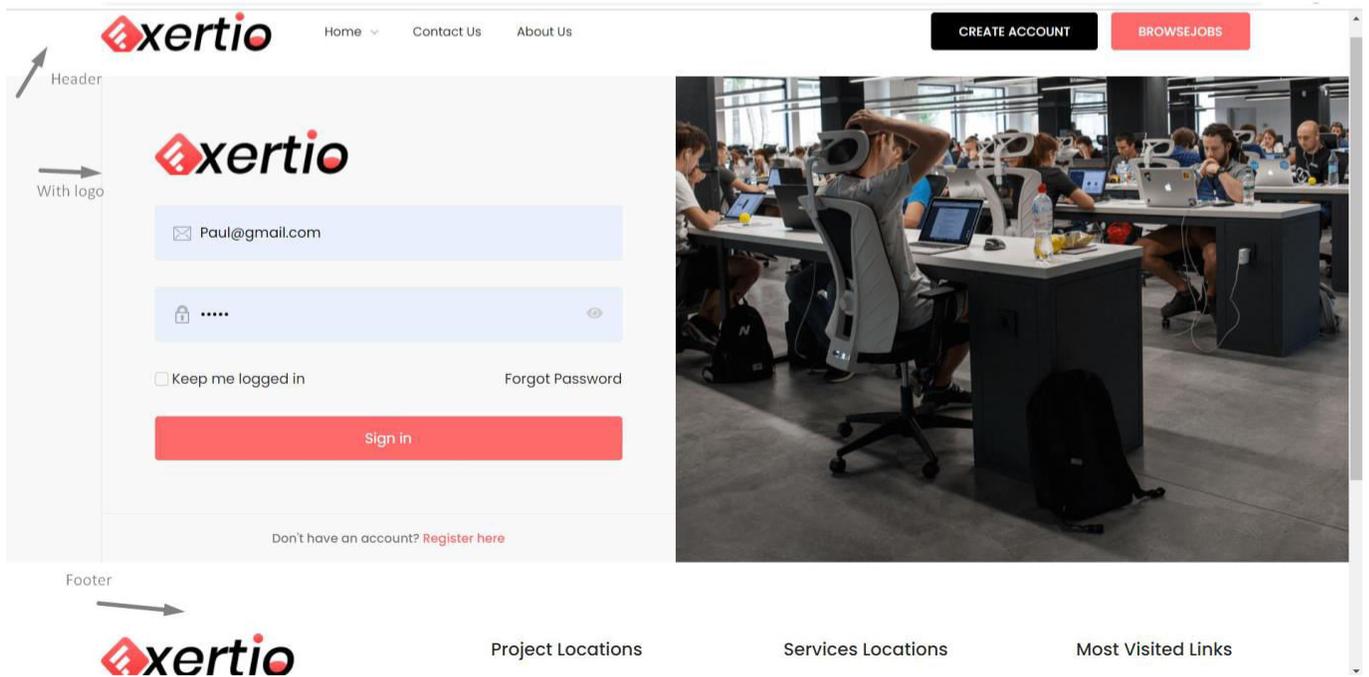

In the Authentication section, the admin can control the header, logo, and footer on the Login page.

Login page with Header, Logo, and Footer :

The screenshot shows the WordPress admin interface for the Login page settings. On the left is a dark sidebar menu with the following items: Header Options, Blog, Authentication (highlighted), Login (highlighted), Register, Email Templates, Projects, Services, Typography, Page Links, Crons, Users, Employer, Freelancer, API Keys, Statistics Graph, and Footer Options. The main content area is titled "Login" and contains four settings sections:

- Show header:** Includes "Hide" and "Show" buttons. A grey arrow points to the "Show" button. Below the buttons, it says "Header and menu options will be shown over the login page".
- Show footer:** Includes "Hide" and "Show" buttons. A grey arrow points to the "Show" button. Below the buttons, it says "Footer will be shown over the login page".
- Show Logo on Login page:** Includes "Hide" and "Show" buttons. A grey arrow points to the "Show" button. Below the buttons, it says "Logo will be shown over the login page body".
- Login page bg image:** Includes a text input field with the URL "https://marketplace.exertiwp.com/wp-content/uploads/2021/01/sz-2.png", a small image thumbnail, and "Upload" and "Remove" buttons.

The screenshot shows the xertio website's login page. At the top, there is a header with the xertio logo, navigation links for "Home", "Contact Us", and "About Us", and two buttons: "CREATE ACCOUNT" and "BROWSE JOBS". The main content area is a login form with the following elements:

- An email input field containing "Paul@gmail.com".
- A password input field with a lock icon and a "Show/Hide" eye icon.
- A checkbox labeled "Keep me logged in" and a link for "Forgot Password".
- A red "Sign in" button.
- A link at the bottom: "Don't have an account? Register here".

At the bottom of the page, there is a footer with the xertio logo and three links: "Project Locations", "Services Locations", and "Most Visited Links".

Grey arrows in the image point to the "Header" (top navigation), "With logo" (login form), and "Footer" (bottom navigation) sections.

On Front end:

The screenshot shows the front-end of the Register page. At the top, there is a navigation bar with the 'xertio' logo, 'Home', 'Contact Us', and 'About Us' links. On the right side of the navigation bar, there are two buttons: 'CREATE ACCOUNT' and 'BROWSE JOBS'. The main content area is divided into two columns. The left column contains the registration form with the following fields: 'Display name', 'Username', 'Email address', and 'Password'. Below the password field is a checkbox for 'I am agree to Terms and Conditions' and a red 'Create Account' button. At the bottom of the form, there is a link: 'Already have an account? Login here'. The right column features a large background image of an office with people working at desks. Below the registration form, there is a 'Footer' section with the 'xertio' logo, a paragraph of placeholder text, and social media icons for Facebook, Twitter, LinkedIn, YouTube, and Instagram. To the right of the logo, there are three columns of text: 'Project Locations' (California, Citrus Heights, Sacramento, USA), 'Services Locations' (California, Citrus Heights, Sacramento, USA), and 'Most Visited Links' (About Us, Blog, Services Search, Freelancer Search).

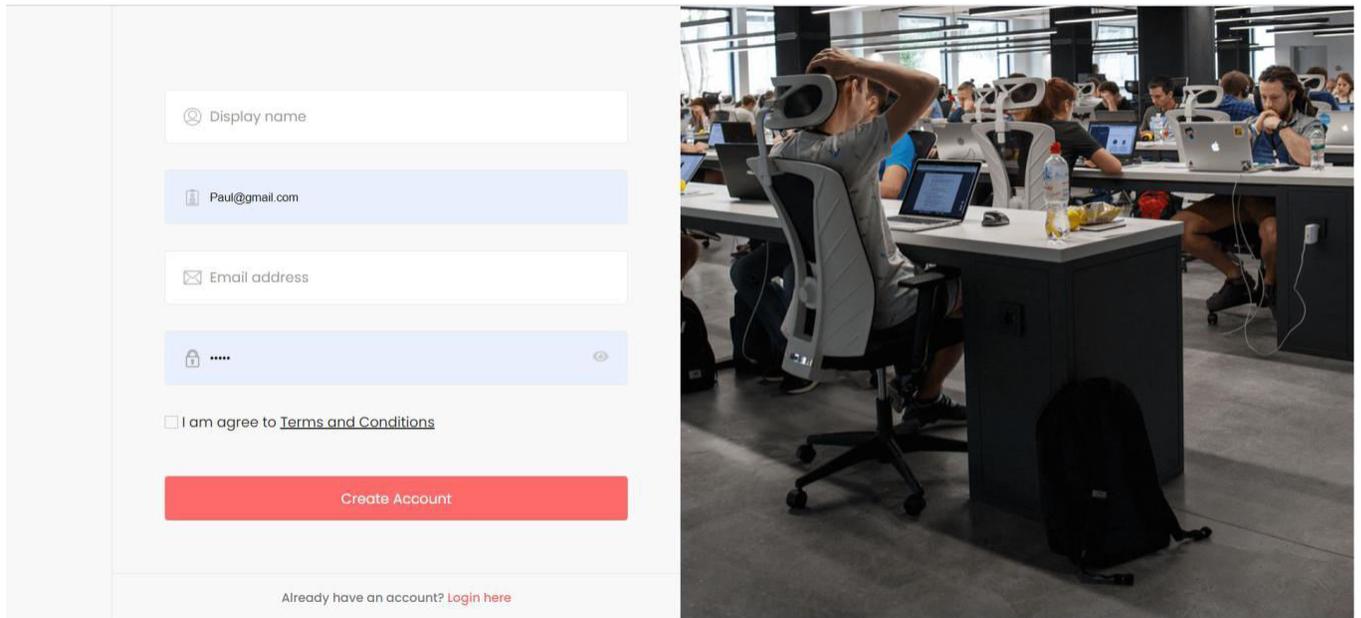

Register page with Out Header, Logo, and Footer :

The screenshot shows the Admin Panel configuration for the Register page. The left sidebar has 'Authentication' selected, with 'Register' highlighted. The main area is titled 'Register' and contains the following settings:

- Show header:** A toggle switch set to 'Hide'. Below it, the text reads: 'Header and menu options will be shown over the register page'.
- Show footer:** A toggle switch set to 'Hide'. Below it, the text reads: 'Footer will be shown over the register page'.

Services

Here is the control of services where the admin can do the setting according to his requirements.

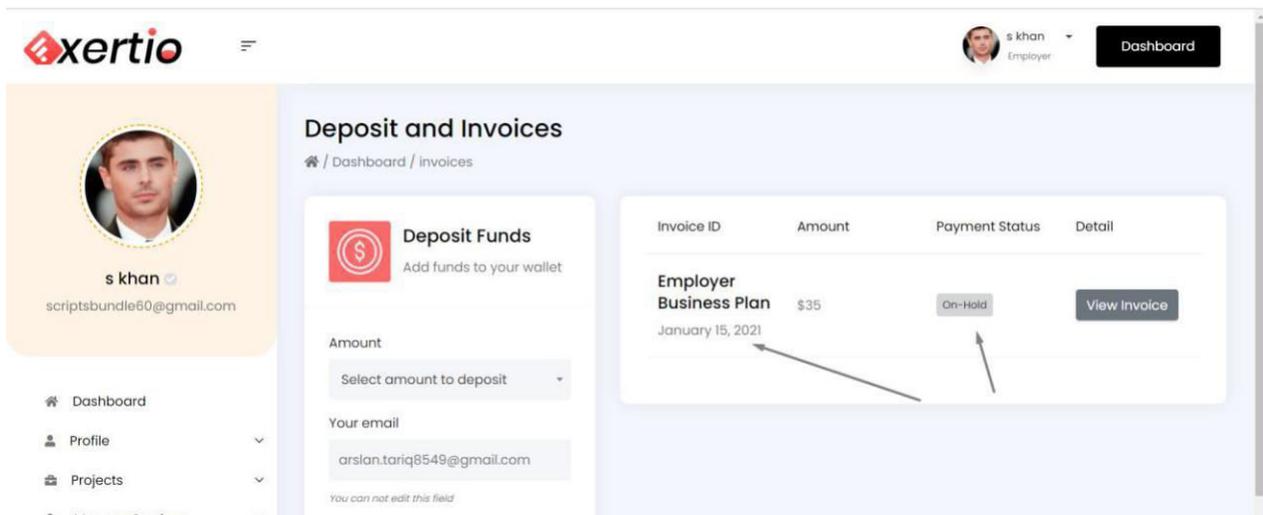

Services Free :

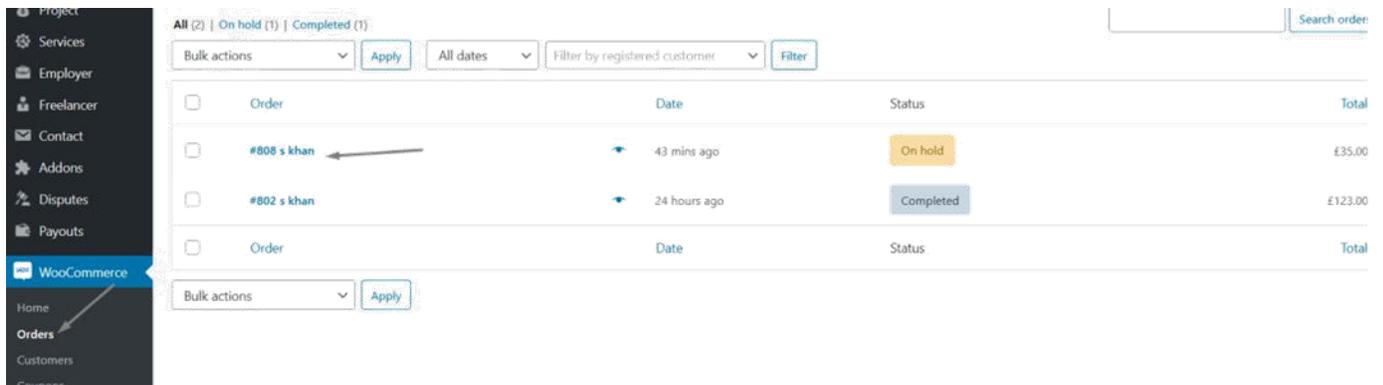

If Services free is selected then the employer will able to post services without subscribing to any package.

Services Paid :

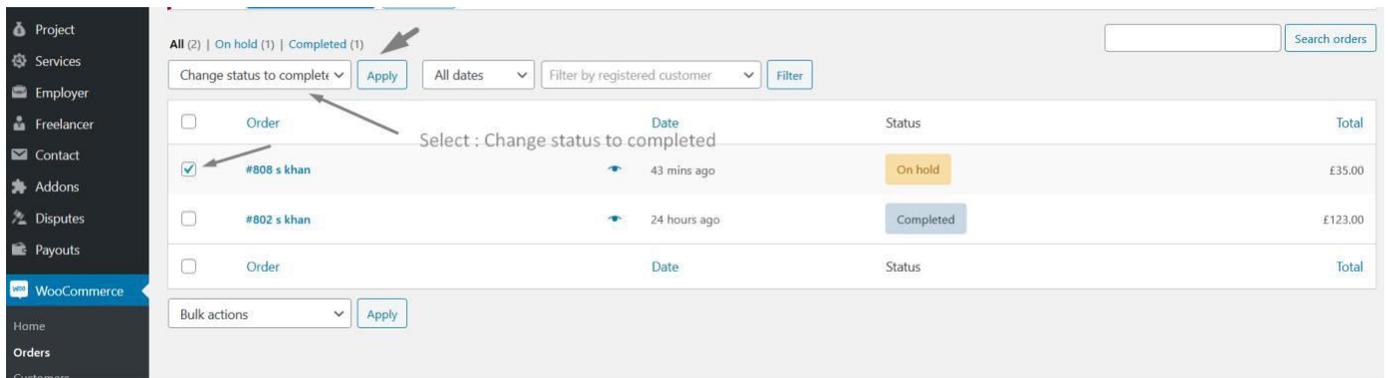

If it is selected package admin approval then after purchasing the package, the Order will hold for admin approval.

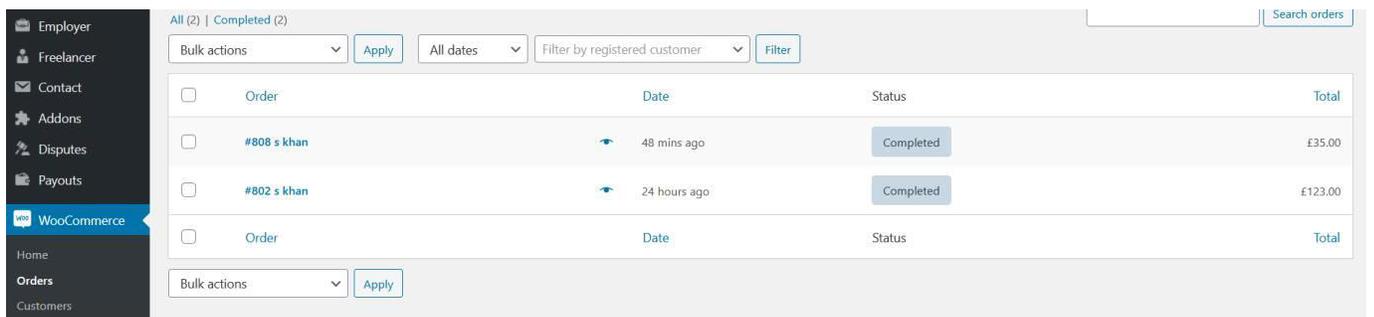

Services Package Admin Approval :

AND

AND

Services Package Auto Approval :

In Auto approval as the user subscribe to any package then he is able to post services.

Default service expiry in days :

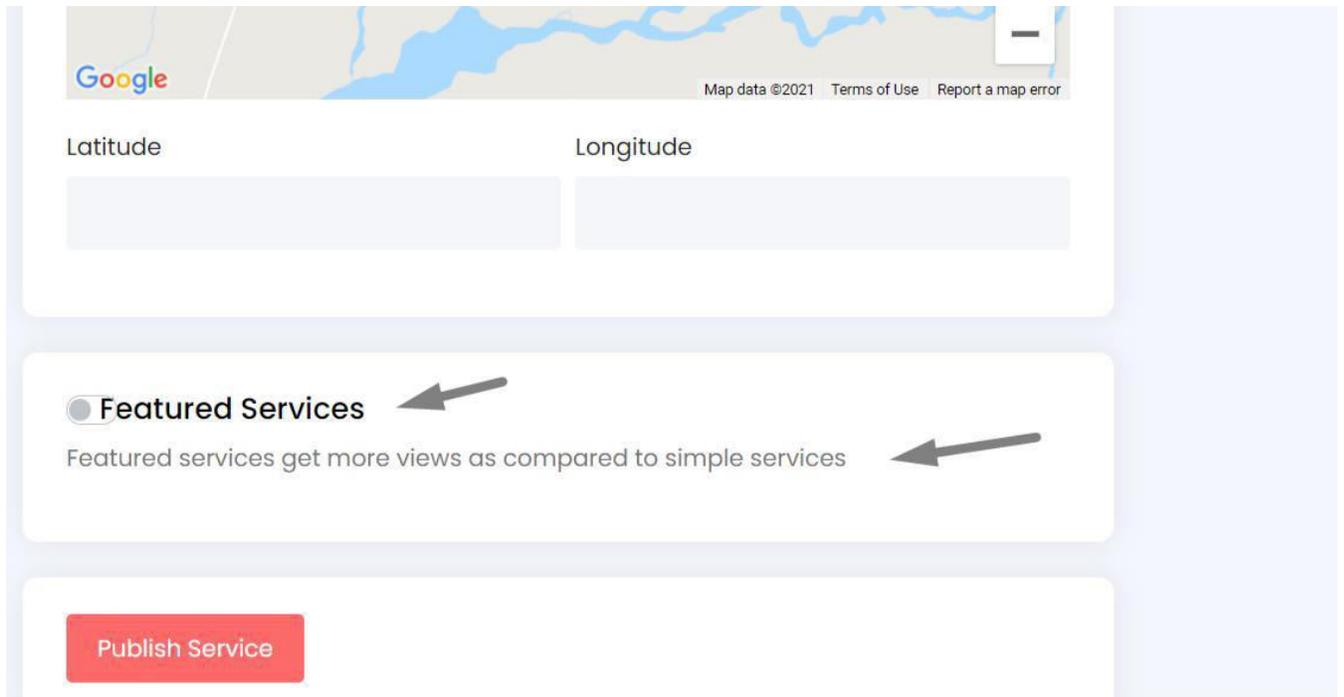

Please set the number of days when services will expire after that day employer can't post services.

Default featured services expiry in days :

Set the number of days when featured services expire when featured services get expire then it becomes a simple service.

Services Featured Title & Services Featured description text:

Please write the featured title and its description text it will look as shown.

The image shows a screenshot of a service listing form. At the top, there is a Google map with the Google logo on the left and "Map data ©2021 Terms of Use Report a map error" on the right. Below the map are two input fields labeled "Latitude" and "Longitude". Underneath these fields is a section for "Featured Services" which includes a toggle switch and the text "Featured services get more views as compared to simple services". Two arrows point to the toggle switch and the text respectively. At the bottom of the form is a red button labeled "Publish Service".

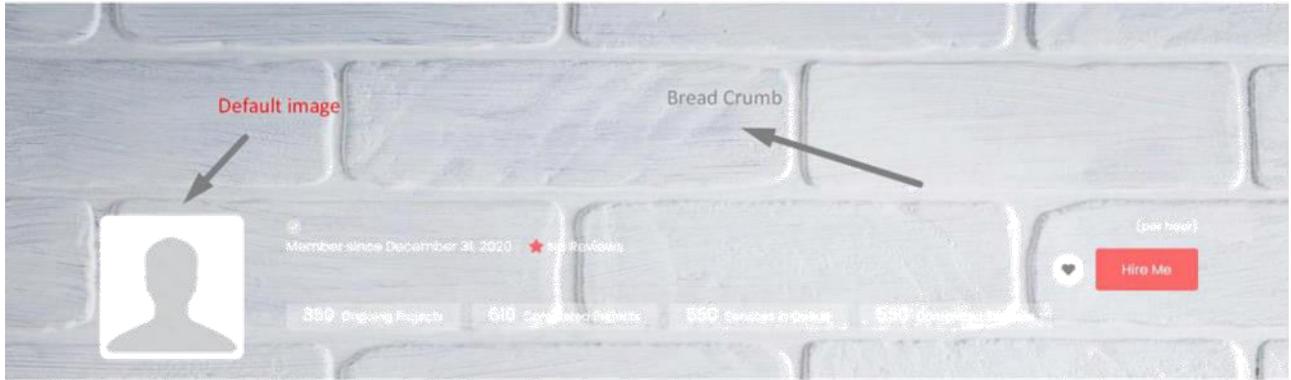

Employer

The screenshot displays the 'Employer' settings page. The left sidebar is dark with a white 'Employer' menu item. The main area is light gray. At the top right, there are buttons for 'Save Changes', 'Reset Section', and 'Reset All'. The 'Employer Default Picture' section shows a URL and a placeholder image with 'Upload' and 'Remove' buttons. Below it is a note: 'If Employer does not provide image. This will be shown over his profile.' The 'Employer Default Cover Image' section shows a URL and a placeholder image with 'Upload' and 'Remove' buttons. Below it is a note: 'If Employer does not provide Cover image. This will be shown over his public profile.' The 'Social Links' section has an 'On' toggle. The 'Assign Package on Registration' section has an 'On' toggle. The 'Select Package to assign' section has a dropdown menu with 'Employer Basic Plan(\$30)'. At the bottom right, there are buttons for 'Save Changes', 'Reset Section', and 'Reset All'.

In the Employer section :

Admin can set default profile image, Bread crumb, Enable social links.

Projects

All Projects

In all projects, the admin can overview all projects which are created by employers. In this section, the admin can perform different actions for example:

- Admin can Approve/Publish pending projects.
- Admin can perform Edit/Delete operation.
- Many more.

The screenshot shows a dashboard for managing projects. On the left is a sidebar with navigation options: Project, All Projects, Add New Project, Project Categories, Project Duration, Freelancer Type, English Level, Project Type, Project Level, Labels, Skills, Languages, Locations, Addons, Services, Employer, Freelancer, Contact, and Addons. The main content area displays a table of projects. At the top right, there are buttons for 'Sure! I'd love to help' and 'No thanks'. Below the table, there are filters for 'Bulk actions', 'Apply', 'All dates', and 'Filter'. A search bar labeled 'Search Projects' is also present. The table contains 5 items, with the following data:

<input type="checkbox"/>	Title	Project Categories	Project Duration	Freelancer Type	Skills	Addons	Status	Price	Author	Date
<input type="checkbox"/>	Assemble a 3D activity of 35 seconds	Video & Animation	1-3 Weeks	Individual	Backend Developer, Designer	—	publish	20	Edison	Published 2021/01/04 at 12:11 pm
<input type="checkbox"/>	Blog writer for a website	Writing & Translation	1-5Days	Student	Writer	—	publish		Finn	Published 2021/01/05 at 6:09 am
<input type="checkbox"/>	Looking for content writer for my website.	Writing & Translation	—	Company	QA Specialist, Support Agent, Writer	—	publish	800	Paul	Published 2021/01/04 at 12:37 pm
<input type="checkbox"/>	React Native developer is	Apps Developements	Long term	Individual	Android Developer,	—	publish	800	Jason	Published 2021/01/05 at 6:34 am

Add New Project

In the dashboard, the admin can create a new project and select the fields according to the project requirements.

On a Single project view, it looks like.

The screenshot shows a project detail page for a freelance platform. At the top, there is a header image of a busy office with the text "Project Detail" and a breadcrumb "Home / Job Detail". Below the header, the project title "Blog writer for a website" is displayed, along with its category "Writing & Translation" and the date "January 5, 2021". A "Send Proposal" button is visible in the top right corner. The main content area contains a description of the project: "we need an essayist that can compose 10 interesting weight reduction articles, around 1000 words each. Authors need to comprehend the item/supplement prior to composing in order to discover great points and features. Do earlier watchword research prior to composing. Have great SEO practice, and can complete it by week's end." Below the description, there is a section for project details with icons for "Freelancer Type: Student", "Project Duration: 1-5Days", "Level", "English Level: Basic level", and "Languages: Arabic English". A "Skills Required" section lists "Writer". The "Send Your Proposal" section includes a "Cover Letter" text area and a "Submit Proposal" button. On the right side, there is a profile card for "Alezy khan", a member since January 1, 2021, with a "View Profile" button. Below the profile card, there is an "About The Employer" section with a globe icon and a list of employer details: "0 Projects completed", "Payment Method", and "Email Verified".

All Services

For all services, the admin can see all services which are created by Freelancer or Admin. In this section, the admin can view, Publish or perform those activities which are available.

The screenshot shows the WordPress Services management interface. The left sidebar contains navigation options: Dashboard, Posts, Media, Pages, Comments, Project, and Services. The main content area displays a list of services. At the top, there is a notification for a WooCommerce update and a message about using Elementor. Below that, there is a search bar and a table of services. The table has columns for Title, Service Categories, Delivery Time, Response Time, Locations, Status, Price, Author, and Date. Three services are listed:

Title	Service Categories	Delivery Time	Response Time	Locations	Status	Price	Author	Date
<input type="checkbox"/> Digital Marketing's	SEO	6 -8Months	1 Hour	—	publish	350	Sam	Published 2021/01/04 at 6:52 am
<input type="checkbox"/> I will be your social media marketing manager and content creator	Marketing	1 Month	1 Hour	—	publish	87	Finn	Published 2021/01/07 at 8:17 am
<input type="checkbox"/> I will build up your android and ios application in react native	Mobile APP Development	2-3 Months	3 Days	—	publish	400	Finn	Published 2021/01/07 at 6:29 am
